

EVELINA NORLIN

FRONT END DEVELOPER

ABOUT

I'm Evelina, a front end developer student with a love for structured code and good design.

As a newbie in the field I'm on the mission to learn as much as I can. My interest lies in development and UI/UX design, which I am studying beside my full time development program.

Currently on the look out for a company where I can do my internship, autumn 2023, week 43 - 52.
